About Jae

AUTHORS'S NOTE

Every romance novel ends with a happily ever after. But, of course, life doesn't stop there. In many ways, that's when things start to get really interesting.

The couples from my Shape-Shifter Series still had plenty of challenges ahead of them after their stories ended, including fighting for acceptance in a world that still sees their relationship as taboo.

I often found myself wondering how they were doing after the final page.

This collection of short stories is my way of answering that question and revisiting old friends. They are mostly feel-good stories filled with heartwarming moments, banter, and unexpectedly humorous situations, but they also capture new milestones in their relationships.

I hope you enjoy catching up with them as much as I enjoyed writing these glimpses into their lives.

If you haven't yet read the previous books in the Shape-Shifter Series, you may want to start there first—these stories are best enjoyed once you already know the couples and their journeys.
